# Social Network Guidelines

*Instructor: Masoud Asadpour*

Fall 2025

## Announcements

- All important course announcements will be posted on the [eLearn platform](#) and also in the course's Telegram group. Please join the group using the link provided below:  
[Social Network@UT Fall-2025](#)
- To get to know each member of the TA team, please visit the following link:  
[Social Network](#)

## Assignments

- You will have 4-5 assignments. The final assignment cannot be submitted late under any circumstances; after its deadline, no submissions will be accepted.
- Assignments may be uploaded to eLearn for up to 7 days after the official deadline, but a **5% penalty per day** will be deducted from the grade for each late day. After 7 days, submissions will not be accepted.
- To verify your understanding of each assignment, there will be a brief 5–10 minute in-person or virtual review session. You will be selected for this session **once during the semester**. If there are discrepancies between your submitted report and your presentation, the chance of being chosen again will increase.
- **Plagiarism is strictly prohibited.** Any similarity in the report or code that indicates copying or if cheating occurs during exams, will result in a score of **0.25 for all students involved for the course**.

## Policy on Use of LLMs

Use of LLMs is permitted and is not considered academic dishonesty, provided that you follow these conditions:

- If an assignment explicitly states at the beginning that LLMs or similar tools may not be used, you must follow that instruction. In such cases, their use is not allowed.
- In your assignment report, you must describe how you used these tools. Include details such as the tools you used, their specific applications, and any other relevant information.
- At the end of your report, you must include the link to the prompts used: ([The ChatGPT conversation link](#)).

## Submission

- The procedure for submitting assignments is explained in detail separately in this file and in the related video.
- Submit your final file as a single **ZIP** file that includes the report in **PDF** format and all code files. The name of the ZIP file should follow the pattern: SN\_HW#\_StudentNumber
- For every assignment, a specific template for submitting your answers will be provided. You must use the given template when submitting your work.
- The report can be written in either Persian or English, with no preference for either.
- In Persian reports, use B Nazanin with a font size of 14 for the text body and B Titr with a font size of 18 for titles. English reports should use Times New Roman 12 for the body text and Times New Roman 16 for titles.
- In all reports, equations, figures, and tables must be labeled with unique numbers and referenced accordingly.
- It's worth noting that well-organized and clearly structured submissions make it much easier for the TA team to review and grade your work accurately.
- If you have any questions, contact the assignment TAs via email. Please avoid sending private messages on social media so that responses can remain organized and efficient.
- The length of the report is not a grading factor. For implementation questions, focus on providing clear explanations; clarity matters far more than word count.
- Every submission must include both the report and the corresponding code. Any code submitted without a report will receive **zero points**.

## Exams and Quizzes

- There will be one midterm exam and one final exam.
- There will be three pop quizzes during the semester. Any student who misses all quizzes will be required to withdraw from the course.

## Grading

- Assignments: 8–10 points
- Midterm + Final Exams: 10–12 points
- Quizzes: Each quiz is worth 0.5 points.
